

Sustainability investment labels help investors find products that have a specific sustainability theme. This product has a 'Sustainability Focus' label: it invests mainly in assets that focus on sustainability for people or the planet.

# RATHBONE GREENBANK STRATEGIC GROWTH PORTFOLIO

**S GBP ACC**

30 November 2025

## RISK TARGET

66.67% of the FTSE Developed stock market index volatility.

## SUSTAINABILITY OBJECTIVES

This fund invests in companies that operate sustainably and support the United Nations Sustainable Development Goals (SDGs). To achieve this the fund undertakes negative screening and positive alignment analysis. Full details of our approach to sustainability are contained within our Sustainability Process brochure.

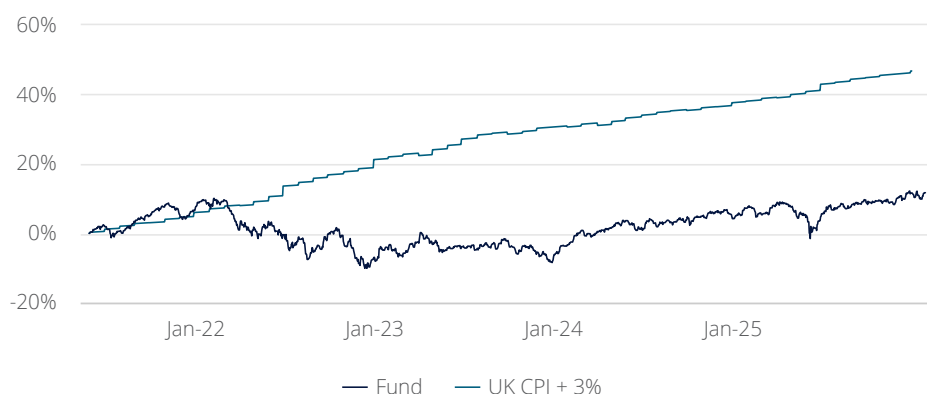

## INVESTMENT OBJECTIVE

The objective of the fund is to deliver a greater total return than the Consumer Price Index (CPI) measure of inflation + 3%, after fees, over any rolling five-year period. The fund aims to deliver this return with no more than two-thirds of the volatility of the FTSE Developed stock market Index.

There is no guarantee that this investment objective will be achieved over five years, or any other time period.

We use the CPI + 3% as a target for our fund's return because we aim to grow your investment above inflation. We aim to limit the amount of volatility risk our fund can take because we want our investors to understand the risk they are taking in terms of the global stock market.

## FUND PERFORMANCE SINCE INCEPTION

29.03.2021 to 30.11.2025, mid-mid, percentage change. Past performance should not be seen as an indication of future performance. The value of investments and the income from them may go down as well as up and you may not get back your original investment.

## FUND RATINGS

## SUSTAINABLE RATINGS

IMPORTANT INFORMATION

Copies of the Prospectus, the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbones Asset Management Limited.

Investors should carefully read the Key Investor Information Document (KIID), Supplementary Information Document (SID) and Prospectus for detailed investor risks and before making an investment decision.

The value of investments and the income from them may go down as well as up and you may not get back your original investment.

For more details on the investment policy please refer to the prospectus.

As the Manager's annual fee is taken from capital, that capital may be eroded or growth restricted to the extent of the charge and that, while there may as a result be a reduction in liability for Capital Gains Tax, there will be some increase in Income Tax liability for tax paying shareholders.

Details of tax levels and reliefs may change in the future. The value of any tax relief depends on individual circumstances. If you have any doubts about your tax position, or the suitability of this investment, you should seek professional advice.

Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

Emerging markets are volatile and may suffer from liquidity problems.

The use of derivatives for investment purposes may increase the volatility of a sub-fund's net asset value and may increase its risk profile.

IMPORTANT NOTES

If you require clarity on any of the terms used in this factsheet then please refer to our Supplementary Information Document for further explanation.

Source performance data Morningstar.

The ongoing charges figure (OCF) includes the Annual Management Charge and all appropriate costs that may be deducted from the fund's assets, in line with current regulatory and industry guidance. Where appropriate, the OCF may include a synthetic element relating to the costs incurred in underlying collective investment undertakings, where permitted by the Prospectus. The OCF is included in the Annual or Interim report and are calculated biannually.
